Located in a quiet residential neighborhood within easy walking distance of Oregon Health Sciences University, the Veterans Hospital, Casey Eye Clinic, Shriner's Hospital and Doernbecher Hospital for Children, as well as other medical and scientific facilities on The Hill, the Inn is just a short drive from all the excitement and nightlife that downtown Portland has to offer. The newly completed "Tram" at OHSU provides convenient transportation to additional medical, scientific, dining and recreational facilities located along the South Waterfront. And for our guests that enjoy the great outdoors, the Inn is surrounded by wilderness parks and more than forty miles of hiking trails; all within a short walking distance of our front door.

The Inn offers a choice of seven comfortable and well-appointed guestrooms, including two rooms with decks and panoramic views of OHSU and surrounding environs, as well as inviting and relaxing common areas for our guest's enjoyment. The living room and dining room are well suited for relaxing, dining or entertaining, and our third floor sitting room boasts expanded color cable television, leather seating and a large outdoor deck with territorial views available for all of our guest's enjoyment.

Guest Comments

You made my first visit to Oregon a very pleasant and a memorable one. Thanks for the great hospitality and amazing breakfasts. I will be sure to stop by and have a cup of your famous copy if I ever come around this area again.

We had a fabulous time - the hospitality was so welcoming! We appreciate your being so helpful with Kate. She told me, even though she's 11 months old, she wants to come back. She just can't stop talking about your scrambled eggs.

What an amazing new friend you are! Thank you again and again for relaxing my stressful situation! I feel I have an "extended family".

Sue - Corvallis, OR

Thank you for everything! The place is amazing - a perfect pre-interview experience and the house is gorgeous. You have a gem here, especially with your hospitality.
