A great Massachusetts bed and breakfast inn is a captivating combination of wonderful guests, a gracious staff, magical surroundings, delicious foods, and luxurious rooms. Set back from the road on twelve secluded acres just one mile from downtown Stockbridge and close to the action in Tanglewood Massachusetts is the Inn at Stockbridge. The Inn is a Georgian-style mansion with large white pillars built as a private residence in 1906 and lovingly restored in 1982 as a bed and breakfast.

The architecture of the mansion was duplicated in the cottage house with its four white columns and grand porch, however, the magic lies inside these theme rooms. St. Andrews, Kashmir, Provence, and Out of Africa have gas fireplaces, king-size canopy beds with pillow top mattresses, cathedral ceilings, TV-VCR combinations, and many wonderful romantic Inn room amenities. In addition, Kashmir and St. Andrews each feature 6-foot whirlpool bathtubs with separate showers.

We are surrounded with history, celebrity, romance and intrigue. Every season is stamped with its own beauty and charm: the green flower-filled lushness of spring and summer; a fall foliage palette without rival; the winter look of an old fashioned Christmas card.

Take a deep breath, inhale the Berkshire mountain air, and slow your pace to match the town's character. A perfect Bed and Breakfast family vacation getaway.
